Summary

A passionate and detail oriented full-stack developer with hands-on experience in designing dynamic and functional web applications. Current UC Berkeley bootcamp student eager to collaborate with fellow developers and to utilize technical skills to contribute to impactful projects. Known as a proactive and versatile team player, quickly adapting to various roles within a project to deliver intuitive and user-friendly applications.

Skills

<u>Technologies</u>: JavaScript, Node.js, React, Express, SQL, NOSQL, REST API's, HTML5, CSS3, Bootstrap, Git

<u>Libraries</u>: Mongoose, Material UI, Sequelize, Handlebars, jQuery, Bootstrap

Projects

<u>List It</u> (Express, Express-Session, Handlebars, Sequelize)

GitHub: https://github.com/EzekielCampos/List-It

Deployed Page: https://list-it-kw5e.onrender.com/

- This full-stack application enables users to create accounts to manage and organize their hobbies through customizable lists.
- My responsibilities included organizing and coordinating the backend development, and ensuring seamless data flow from the server to the front-end team. This entailed creating the database models with Sequelize and designing the RESTful API.
- Throughout the project, I utilized critical thinking to troubleshoot and optimize the back-end while collaborating with front-end developers to intuitively integrate the UI with back-end logic resulting in a cohesive and user-friendly application.

<u>Bon Appetit</u> (jQuery, JavaScript, Bulma)

GitHub: https://github.com/EzekielCampos/bon-appetit-food-cocktail-recipe-search-application?tab=readme-ov-file

Deployed Page: https://ezekielcampos.github.io/bon-appetit-food-cocktail-recipe-search-application/

- This application is a food and cocktail search engine where the user can browse through recipes based on categories.
- As Scrum master, I coordinated the design and development of the website, ensuring that project timelines were met and facilitated communication among the group.
- In addition I also designed the JavaScript code to manipulate and render data from the cocktails API to the user interface.

Education

University of California Berkeley Extension	In-Progress
Full-Stack Developer Certificate	
University of California San Diego Extension	April. 2024
Certificate in C/C++ Programming	
Point Loma Nazarene University	May 2021
Bachelor of Arts in Social Work	

Work Experience

Caregiver   March 2021- Current

In Home Supportive Service   San Diego, CA

- Coordinate and facilitate daily activities and care for a patient with special needs, ensuring a structured yet flexible schedule that includes excursions out in the community, educational activities, and medical care.

- Collaborate and communicate effectively with medical and educational personnel to monitor and update patient progress.

- Design and implement personalized physical and occupational training regimens, while adapting plans based on the patient's individual needs and current condition.
